BOLD BEAN CO

Amelia Christie-Miller
CEO and Founder

A Global Dry Bean Company

I'm Michelle, biochemical engineer with 8 years working strongly linked to innovation, research and entrepreneurship for the food industry. Currently, I work as Food Science Team Lead at the not company - a Foodtech that reinvents animal-based foods using only plants.

Unlike traditional food businesses, our company uses technology to recreate the same products we love to eat in a natural, sustainable and affordable way, keeping it functional, easy to use and mouthwateringly delicious.

Michelle Villarroel
Food Science Team Lead
